CUP CHARACTERISTICS

A sweet citrus like fresh-squeezed lemonade is paired with tropical, passionfruit aromatics in a coffee that's almost as lively as the community who produces it.

SOURCING INFORMATION

Three hours southeast of Yirgacheffe in the Oromia region of Southern Ethiopia, Uraga is a special woreda that serves as home to the Layo Teraga cooperative. Run by some of the most animated and enthusiastic people we came across during recent Ethiopia travels, it comes as no surprise that this coffee sings with complexity and character every time it lands on our cupping table.
